

# The professional choice for complete schedules information

When you need comprehensive, fully detailed schedules data OAG SSIM is the perfect solution. IATA member airlines working with OAG, GDS and other industry bodies have defined SSIM to meet universal needs for exchanging schedules information. IATA defines the standard in its Standard Schedules Information Manual (SSIM) – Chapter 7. OAG SSIM data fully complies with this standard but offers, in addition, many useful customized features to help customers find the perfect solution. OAG SSIM is the professional choice.

## OAG SSIM provides:

- Comprehensive, accurate and up to date worldwide schedules
- Schedules data organized by carrier, flight number and leg
- Fully detailed schedules including comprehensive code share data
- Full compliance with IATA SSIM standards
- Release Sell Date rules are strictly applied

## OAG SSIM Customize Options:

- Fully flexible data selection allows customers to choose precisely the data they want
- Select all carriers or specified carriers only
- Select passenger or cargo schedules or both
- Select air services only or include rail, bus and truck schedules
- Files can be delivered monthly, weekly, daily or ad hoc
- Choose from a range of compression and transmission options

## OAG SSIM delivers customer benefits:

- Sourced from OAG's renowned database quality is guaranteed
- Provides full code share data enabling users to ensure their displays comply with prevailing legislation
- Complete synchronization with your partners and GDS
- Save on costs. OAG SSIM is a complete data source so there is no need to manage data from other sources

## OAG Data Quality

- OAG collects, verifies, corrects and enhances schedules data for more than 1,000 airlines
- OAG updates more than 50,000 flights per day
- OAG's comprehensive database contains more than 28 million annual flight departures
- OAG applies more than 400 data integrity checks to every schedule before it is accepted into the database
- OAG SSIM is the choice of GDS, online travel agents, airlines, airports, travel agents, government agencies and industry analysts
- OAG always applies the latest SSIM standards as soon as they are announced
