

# Unparalleled market intelligence for smarter business decisions

Access the most extensive and accurate flight schedule database via a suite of comprehensive analysis tools. Affordable and exceptionally user-friendly, **OAG MAX** quickly gives you the information you need, when and how you need it—over the web or on CD.

## OAG MAX Online

Powerful, intuitive and user friendly, **OAG MAX Online** gives you access to the worlds flight schedules via our online tool.

- Access 12 months of planned flight information
- Analyze more than 120 data variables
- View competitor activity, evaluate new routes and identify potential markets
- Pre-defined reports for common data queries
- Receive instant data on airport activity, destinations, busiest routes, carrier share and more
- Review results in clear charts and tables
- Data updated weekly
- Optional ICAO module available

## OAG MAX Historical

- Analyze historical schedules data in annual increments back to 1996
- Updated monthly

## OAG MAX CD

- Updated each month, **OAG MAX** on CD gives you everything you need to analyze flight schedules in a stand alone format
- Access more than 28 million planned flight departures for the coming year
- Perform complex and detailed analysis easily
- Create appealing, easy-to-understand charts and graphs with just a click
- Cost efficiencies - no schedules database to build and maintain
- Processing efficiencies - receive only the information you need when you need it

**"We find OAG MAX very cost effective. With some of our models, scheduling takes hours to perform using other methods. OAG MAX allows us to complete this function in minutes."**

**Trina Froehlich  
Senior Analyst  
Mead & Hunt, Inc.**
