

## The ultimate solution for analyzing and tracking performance of US-certified airlines

OAG Form 41 iNET makes it quick and easy to run detailed traffic and financial reports about any US-certified airline.

Detailed information is overlaid with powerful analytical and reporting software to give you intelligence at the click of a button. Benchmark performance, run carrier comparisons and identify trends with ease. In no time at all you'll have the insight you need to uncover opportunities that will benefit your business.

The online tool gives you access to the most up-to-date Form 41 DOT data; our historical archive database tracks performance back to 1968 making it a vital airline financial analysis tool.

Thanks to our unique working relationship with the US Department of Transportation (DOT), OAG goes way beyond simply disseminating the information; we undertake vigorous validation checks to ensure the information is of the highest quality.

### Powerful features:

OAG Form 41 iNET uniquely combines traffic schedules and financial data for a complete picture of performance:

- Traffic schedules filed with the US DOT by airline (T1), aircraft type (T2) and origin airport (T3)
- Form 41 financial data submissions include balance sheets, income statements, employee counts and traffic schedules
- Includes T1-EARLY, the industry's first view of measurable performance from the previous month
- Updated monthly

Run complex calculations with ease:

- Flexible and sophisticated query tool
- Retrieve over 100 ratios in seamless time-series
- Utilize more than 170 industry-accepted calculations contained in the database
- Output reports in your format of choice
