

## Analytical expertise on demand

The **OAG Market Intelligence** team is there for you when you need aviation analysis fast.

OAG's professional aviation analysts will prepare reports to your exact specifications, sourcing the information you need from our extensive schedules, fleet and traffic databases.

Our fast and flexible service provides bespoke intelligence on demand, using professional analysts with a deep understanding of the aviation industry. Count on our team to select the most appropriate data to generate the report you need, when you need it.

### A flexible service that delivers results:

- Reports are created on demand by a team of experts who are skilled at data mining and analysis
- Compiled using OAG's renowned global aviation databases including schedules, fleet and traffic information
- Professional analysts will utilize any combination of OAG data — over any time sequence — to deliver the best report to meet your needs
- Delivered in a choice of formats including Excel, Access, .txt and .csv
- Choice of delivery method including email, FTP, CD and USB
- No subscription necessary — even if you're not an existing OAG customer
- Fast, reliable and friendly service

### How OAG Market Intelligence benefits you:

- Gain competitive insight and market intelligence tailored to your exact requirements
- Save research time and costs — only pay for the information you need
- Operate more efficiently, calling on additional skills and expertise when you need it
- Use the reports with confidence, knowing the information is sourced from the most accurate and comprehensive global databases available
