

If you need quality schedules and associated data, OAG has a solution to meet your needs

Whether you need dynamically updated real time schedules or just an occasional delivery of selected schedules, OAG has a product that will meet your needs. Whichever option you choose, you can be assured you will receive schedules data of the highest standards. All of our products are sourced from OAG’s renowned database which contains schedules for over 1,000 airlines. Updating is continuous — 24 x 7 — and over 400 data integrity checks are applied to every schedule before it is accepted on to the database.

Customized solutions

OAG specializes in working with its customers to develop customized solutions. As long as we have the data, there will be a way to deliver just what you need. But considering the existing options is a good place to start:

Delivery options

All of **OAG Schedules** products offer a range of delivery options. Frequency, network, data compression, encryption, pull or push – when you take an OAG product our Operations staff will discuss the options with you. Speed, reliability, security and efficiency come as standard and we will work with you to find the perfect procedure for your business.

Custom options

Remember if you need to customize content, format or delivery just let us know and we’ll work with you to provide the data you need, when you need it.
