 - Engine Maintenance
 - Components
 - Line Maintenance
 - Modifications
- Military Aviation MRO
 - Airframe Depot Maintenance
 - Engine Overhaul
 - Components
 - Field Maintenance
- Business Aviation MRO
 - Airframe Maintenance
 - Engine Maintenance
 - Components
 - Modifications
- Civil Rotary Wing Aircraft MRO
 - Airframe Maintenance
 - Engine Overhaul
 - Components
 - Modifications

Deliverables

- A comprehensive MRO database providing a 10-year forecast of the fleet, utilization and associated MRO spend. The database is powered by the QlikView platform, a next generation Business Intelligence tool that allows you to slice and dice the data from various perspectives: back and forth, inside-out, and instantly receive a comprehensive MRO analysis that's not available anywhere else in the aviation MRO market!
- A PDF report summarizing the fleet and MRO analysis that:
 - Includes Western-designed fixed wing (jets and turboprops) and rotary wing aircraft operated worldwide
 - Outlines key delivery, retirement, utilization and conversions

OAG Aviation keeps its finger on the pulse of every facet of the aviation industry. As a result, we offer the deepest, cleanest information available and we know how to employ it to develop new opportunities. Find out how working with the industry leader can help you reach farther.
